FLEXI ADVANTAGE & FIXED DEPOSIT INVESTMENT ACCOUNT

What is a Flexi Advantage Investment Account?

A Flexi Advantage Investment account is a fixed investment deposit that allows customers access to their money without losing the benefit of a good interest rate. Customers can invest for 3, 6, 9 or 12 months and have access of up to 40% (Flexi percentage) to the invested funds.

Features:

- There is a minimum opening deposit of R1 000.
- Customers can invest for 3, 6, 9 or 12 months.
- Get access of up to 40% of the investment amount when they like.
- The higher the balance, the higher the interest gained.
- Interest is calculated daily and paid monthly.
- Unlimited number of deposits and transfers into their account up to 40% of original investment amount.

What does it cost?

- Free transfers between their Standard Bank current account and their Flexi Advantage account.
- A fee is charged if they access more than 40% of their investment amount.

What is a Fixed Deposit?

A Fixed Deposit is a term based investment account where customers can invest between 1 month and 60 months with no access to their funds or transactions made during the period of investment. Customers get a guaranteed pre quoted interest rate that they can either receive monthly or at maturity.

Features:

- There is a minimum opening deposit of R1 000.
- Interest is paid monthly, quarterly, annually, or on maturity.
- Note that once funds have been invested, a customer cannot add to their investment. If they have more money to invest they can always open another Fixed Deposit or a different investment account.
- If customers are 55 years of age or older, or are a Standard Bank Consolidator customer, they qualify for an extra 0,50% per annum interest on an investment of 12 months or longer for balances under R100 000.

What does it cost?

A Fixed Deposit has no fees or commissions. However, an early redemption is applicable if funds are accessed before the maturity date of the investment.
